„Random"? No, maths!

If you know the starting seeds and the number of RNG calls, you know basically every number

Third game - one solution!

Second game - a few hundreds of positions

First game - a few thousands of positions

„Random"? No, maths!

If you know the starting seeds and the number of RNG calls, you know basically every number

First game - a few
thousands of positions

Second game - a few
hundreds of positions

Third game - one solution!

Fake it till they make it

Game:

The Legend of Zelda -

Link's Awakening DX

Released 1993 (Japan)
